Thank you for your interest in Positive Prevention: HIV/STD Prevention Education Curriculum for America's Youth.

## **Positive Prevention: HIV/STD Prevention Education for America's Youth**

**A New HIV/STD Prevention Education Curriculum  
For Use in Schools (Grades 7-12)  
Including Special Populations**

Positive Prevention: HIV/STD Education for America's Youth was developed by the Orange County Chapter of the American Red Cross and approved by The American National Red Cross for nationwide distribution.

Positive Prevention is a comprehensive curriculum designed to provide adolescents with the vital information and support they need to choose behaviors that reduce their risk of becoming infected with the Human Immunodeficiency Virus (HIV) that causes Acquired Immune Deficiency Syndrome (AIDS), and related STDs. Positive Prevention: HIV/STD Education for America's Youth is the outgrowth of a similar curriculum that was developed in 2000 to meet the special needs of California schools.

This curriculum that incorporates research-based principles of effective HIV/AIDS Education was reviewed by eleven (11) technical experts and pilot tested in six (6) school districts. To date approximately 2,000 copies have been sold and feedback has been overwhelmingly positive.
