

HIV/AIDS Funding and Reimbursement

Information on how HIV/AIDS instructional costs can be reimbursed.

Because HIV/AIDS instruction and training is mandated by *Education Code (EC)* sections 51934 and 51935, local educational agencies may submit claims to the State Controller's Office for reimbursement of costs incurred for HIV/AIDS instruction and training (*Government Code* Section 17561).

This is a list of the types of HIV/AIDS instructional costs that can be reimbursed as a mandated claim. A school district may recover costs for:

- Providing parental notification regarding HIV/AIDS instruction
- Printing and postage for the required notification
- In-service training
- Developing in-service training programs and materials
- Developing/updating curricula and materials
- Selecting and purchasing curricula and instructional materials
- Planning HIV/AIDS prevention instruction
- Holding curriculum reviews for parents
- Making alternative education activities available
- Nonclassroom teacher costs of instructing students on HIV/AIDS prevention in mandated grade levels (includes nurses, resource teachers, consultants, and outside speakers)
